PROFILE

Software developer with 2+ years of experience in designing, developing, and deploying scalable applications. Skilled in front-end and back-end technologies, with expertise in ReactJS, React Native and Unit Testing. Intermediate proficiency in Next.js, Node.js, Express.js and MongoDB. Proven ability to deliver impactful solutions for B2B and admin panel projects, utilizing robust testing and data processing techniques to ensure application reliability and user satisfaction.

EDUCATION

Bachelor Of Technology - CSE, Guru Gobind Singh Indraprastha University 2019-2023
8.72 CGPA

Higher Secondary School, Yuvashakti Model School 2017 - 2018
70.8%

SKILLS

Technical Skills - ReactJS, Redux, JavaScript, TypeScript, HTML5, CSS3, Tailwind, React Native, NextJs, SCSS, C/C++, NodeJS, ExpressJS, MongoDB

Industry Skills - Software Development Life Cycle, Web Development, Database Management, Version Control, Agile Methodologies, Unit Testing, Manual Testing, Android Development

Tools - Postman, SonarQube, Firebase, Git, Bitbucket, Android Studios, Xcode, Github Desktop, Source Tree, Github Co-Pilot, Azure DevOps (Project Management)

EXPERIENCE

Software Developer June 2022 - Present
Etelligens Technologies Pvt. Ltd. *Noida, India*

- Achieved more than 5 successful release for Retail360 within a year working as a Front End Developer.
- Maintaining Test Coverage for every application upto 90%.
- Finding high priority bugs at the time of SIT working as a Manual Tester.
- Bright Beginner Award (06/2022 - 04/2023).

PROJECTS

PepsiCo - Retail 360 - Developed an admin panel for managing logistics, detailing profit and loss on the sale and purchase of PepsiCo products across multiple countries. Built with ReactJS on the front end, utilizing GraphQL queries with a Kafka layer for data processing, and ensured reliability through Jest unit testing.

PepsiCo - VCT - Built a React project with TypeScript for visualizing logistics workflows, including shipping, picking, buffering, trip planning, and outbound tracking. Leveraged Recharts and ApexCharts for graph-based data representation, utilized GraphQL APIs for efficient data handling, and implemented unit testing with Jest to ensure quality and reliability.

PepsiCo - B2B - Developed and launched a B2B web and mobile application for PepsiCo using ReactJS (web) and React Native CLI (mobile), enabling seamless purchasing of food and beverage products across multiple countries. The platform includes language translation, enhancing accessibility and user experience for diverse international markets.
